✓ Projects

- **Memory Game:**

A Memory Card Game built with HTML, CSS, and JavaScript where players match pairs of cards by flipping them over. The game tracks moves and time, offering an engaging challenge to test memory and concentration. It features a responsive design and includes a timer and move counter.

- **Recipe Book:**

A Recipe Book app built with HTML, CSS, and JavaScript that allows users to store, view, and manage their favorite recipes. The app provides an organized way to add ingredients, instructions, and images, helping users easily keep track of and explore their cooking creations.

- **Tic-Tac-Toe game:**

A Tic Tac Toe game developed with HTML, CSS, and JavaScript where two players take turns to place 'X' or 'O' on a 3x3 grid. The objective is to align three marks in a row, column, or diagonal to win. The game includes functionality to reset and play multiple rounds.

- **Starbucks clone:**

-Developed a visually appealing and interactive Starbucks landing page using HTML, CSS and JavaScript.

-Replicated the core elements of the official Starbucks action buttons.

-implemented responsive design to ensure optimal viewing experience across different devices.
